

Monida

OATS

Characteristics

Growth Habit Cool-season annual cereal

Plant Height Medium

Forage / hay / ground cover 70-120 lbs/ac

Winterhardiness Extremely low

Forage Yield Good to Very Good

Leafiness Good

Primary Uses:

- Forage
- Hay
- Erosion Control

Key Attributes:

- Produces a tall, leafy stand before heading
- Performs best with adequate moisture and cooler temperatures during early growth
- High yielding forage oat
- Can improve soil quality and suppress weeds when used as a cover crop

This is for your information only. Please note ratings and descriptions of products are based on research and field observations from multiple locations and years. **Performance may vary** from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of those conditions on the grower's field. Always read and follow IRM, where applicable, grain marketing, stewardship practices, and pesticide label directions.
